

So – you would like to order a custom cake – AWESOME! You have come to the right place. Our simple designs usually do require at least 48 hours in production and our more elaborate fondant designs can take anywhere from 5-7 days in production – so please plan accordingly. We usually tell our clients to book about 1-2 weeks in advance – just to be safe! This ensures that we are able to complete your order to meet our BCZ standards! If you have a particular design in mind – you can send a photo to our order consultants at bellachristiez@gmail.com - they are trained to price our cakes accordingly based on their detail and size. Here are a few other pieces of information to think about when sending your email – **pickup date, number of expected guests, flavor combination**. It usually takes our consultants 1-2 business days to respond. We look forward to working with you!

Let's Begin...
